Giants rally from 29 down, nose out Aces

Abstract

[illegible][illegible]

The company's new product line, the "Eco" series, is designed to be more energy-efficient and environmentally friendly. The "Eco" series includes a range of products, including a new line of energy-efficient light bulbs, a new line of energy-efficient air conditioning units, and a new line of energy-efficient water heaters. The "Eco" series is designed to help homeowners reduce their energy consumption and lower their utility bills. The company is also committed to sustainable manufacturing practices and has implemented a number of measures to reduce its carbon footprint.

SATUR'S WARNING

Only one territory for MILF, MNLF

By Michael Lim Llanoc

TWO MUSLIM SEPARATIST GROUPS, ONE territory.

Sator Ocampo, chair of the House of Representatives' special committee on peace, reconciliation and unity, says the Arroyo government should consider the fate of the larger group of Muslims belonging to the Moro National Liberation Front before its seeks a new autonomy agreement with the rival Moro Islamic Liberation Front.

"So how do they solve the problem? There's only one territory," said Ocampo, referring to the Autonomous Region in Muslim Mindanao, or ARMM, which consists of the provinces of Maguindanao, Lanao del Sur, Sulu, Tawi-Tawi, Basilan and Marawi City.

Ocampo told the Inquirer in an interview that the government faced a new "political issue" because it had a separate agreement with the MNLF, which had paved the way for the creation of the ARMM and the election of then MNLF chair Nur Misuari as the autonomous region's first governor.

Ocampo was reacting to a government disclosure - confirmed by MILF spokesperson Eid Kalulu - that they had agreed in principle to allow a Bangsamoro government to draft its own constitution, impose its own tax system and form and maintain legal and financial institutions in an expanded Muslim region in the south.

The legislator noted that the MNLF was a Moro guerrilla group which entered into a peace agreement with the government in September 1996 when Misuari was still at the helm of the group.

"Now, the government is entering into a peace accord with the MILF calling for another autonomous region in Mindanao. What will they do with the existing ARMM which was created by law?" said Ocampo.

Ocampo recalled he posed the same question to MILF leaders during a hearing by his committee.

"They said that the negotiation for another autonomous government will continue.

The government will work it out later," Ocampo said, without identifying the MILF personalities.

Noting that the MILF had its own "negotiation trajectory," Ocampo said that in the end the country "will suffer the consequences of this action." In any event, he added, Malacañang would again have to run to Congress to legitimize the accord.

"What will be the reaction of the MNLF?" asked Ocampo, stressing that the Misuari-faction and the rest of the MNLF headed by former ARMM governor Parouk Husin should also be consulted before any new autonomy agreement is concluded.

On Nov. 20, 2001, Misuari staged a motiny after he was ousted by a government-backed 15-man council of the MNLF led by Husin.

Breaking a 1996 peace deal with the government, Misuari and 400 of his men attacked three military camps and a police station on the island of Jolo. At least 51 people - 48 rebels and three soldiers - were killed and hundreds of civilians were displaced in the clashes that followed.

Misuari was arrested shortly afterward in Malaysia and is now detained at the Special Action Force camp in Sibang, Cebu while awaiting trial for rebellion.

At the peak of the Moro rebellion, which began in 1972, more than 20,000 MILF warriors fought the Marcos regime until a peace agreement was reached in 1976 with the help of the Organization of the Islamic Conference (OIC).

But the accord collapsed and the rebellion continued on-and-off for years until the OIC persuaded Misuari to accept an autonomous arrangement offered by then President Fidel Ramos. Meanwhile, the MILF, which had earlier broken away from the MNLF continued to wage its own rebellion. It eventually entered into a ceasefire agreement with the Ramos administration but this too fell apart when the Estrada administration overran MILF camps because they were allegedly harboring terrorists.

Troops seize NPA explosives

TROOPS SEIZED A HUGE CACHE OF BOMB materials in a raid on a communist rebel hideout in a mountain barangay in Tanay, Rizal, an army spokesman said yesterday.

Major Bartolome Bacarro said soldiers, acting on a tip from informants, stormed a house in Tanay and found two boxes with about 100 kg (220 lb) of black gunpowder, an ingredient that could be used to make improvised explosives.

"There was no resistance at all," he told reporters, adding the armed men guarding the house fled as troops closed in.

Bacarro said the military was concerned about the bomb-making materials because the New People's Army (NPA) might have a plan to carry out attacks in Metro Manila as leftist activists hold regular protests near Malacañang.

The military says the NPA, blacklisted by Washington as a terrorist organization, has been stepping up attacks in the countryside using improvised bombs.

On Sunday, nine people, including five soldiers, were killed when a roadside bomb exploded during an ambush by NPA rebels in a remote farming town of Mindanao.

The rebels were also using home-made bombs to tattle or burn down transmitters

and relay towers of telecommunications firms that refused to pay "revolutionary taxes," Bacarro said.

At least 18 cellular phone sites, 15 of them owned by number two carrier Globe Telecom Inc., have been damaged or destroyed since January.

In the last two weeks, the NPA has said it has killed about 60 soldiers in 74 encounters in the Bicol region and in northern and eastern areas of Mindanao.

Analysts say the rebels are trying to exploit government distractions over allegations that President Macapagal-Arroyo cheated her way to a fresh term in last year's election and that members of her family are corrupt. **Senators**

Haribon hosts bird watch in Candaba

THE PHILIPPINES IS HOME TO SOME 536 BIRD species, about 44 percent of which are unique to the country, making it a haven for bird watchers.

It is also the East Asian Flyway that migratory birds take during the winter months of October to April.

The Haribon Foundation, through its membership program and together with stakeholders in Candaba, Pampanga, is hosting a bird watching activity on Oct. 22 at the Candaba Swamp.

The activity is aimed at increasing public awareness and promoting the protection and preservation of not only the Candaba Swamp but migratory birds as well.

It is open to the general public, including the residents of Candaba, local tourists, researchers and members of the academe.

The registration fee is P750/person for Haribon members and P1,000/person for nonmembers. It covers the costs of transportation, a morning snack, a packed lunch, laminated field guides, a booklet on bird watching and the fee of a professional bird guide.

For details, contact Lemuel Ponce or Anya Santos at 920-7430, 434-8237, or 436-4363 loc. 15 or 16; e-mail actj@haribon.org.ph; or visit www.haribon.org.ph.

British playwright wins Nobel Literature Prize

But Harold Pinter wonders if his opposition to the Iraq war helped him achieve glory

Perceptions vs pangs of hunger

By [Name]
 [Location]

When I was a child, I was often told that I was "picky" about food. I would refuse to eat anything that wasn't exactly what I wanted, and my parents would tell me that I was being "picky." But now, as an adult, I realize that I was never picky. I was simply hungry. I was hungry for food that was healthy, delicious, and satisfying. I was hungry for food that would give me the energy I needed to get through the day. I was hungry for food that would make me feel good. And I was hungry for food that would make me feel like I was in control of my own destiny.

But when I was a child, I didn't know any of that. I just knew that I was hungry. And I was hungry for food that was exactly what I wanted. I was hungry for food that was healthy, delicious, and satisfying. I was hungry for food that would give me the energy I needed to get through the day. I was hungry for food that would make me feel good. And I was hungry for food that would make me feel like I was in control of my own destiny.

But when I was a child, I didn't know any of that. I just knew that I was hungry. And I was hungry for food that was exactly what I wanted. I was hungry for food that was healthy, delicious, and satisfying. I was hungry for food that would give me the energy I needed to get through the day. I was hungry for food that would make me feel good. And I was hungry for food that would make me feel like I was in control of my own destiny.

What's in the bowl

Calbayog pays tribute to visual artist

By [Name] [Date]

Northern Samar's Calbayog City is paying tribute to a local visual artist who passed away last week. The city government is holding a series of events to honor the artist's life and work.

The artist, who was known for his unique style and use of local materials, had been working on a large mural in the city center. The mural, which depicts a scene from the city's history, is expected to be completed by the end of the month.

The artist's work has been widely praised for its creativity and attention to detail. His art has brought a new level of cultural awareness to the city, and his legacy is expected to live on through the mural and the events being held in his honor.

THE MEMORANDUM sent by the chief of anti-illegal drugs to the barangay chair of Bangkulasi, Navotas read that approximately five kilos of marijuana leaves were turned over to local police for safekeeping. The leaves were reportedly found floating in Manila Bay by fishermen. But a report filed at the Northern Police District said only one kilo was recorded at the Station Anti-Illegal Drugs Special Operations Unit for inventory purposes. The town's chief of police Supt. Genesys Tolejano, however, said the marijuana leaves were all accounted for adding that he was surprised why only a kilo was reported in the district's file. Tolejano said the marijuana leaves could be part of a shipment thrown into the bay during an operation conducted by the Coast Guard the other day.

Page One (Book 2) launch today

A SEMINAR for Mass Communication teachers and students co-hosted by Anyti Publishing Inc., the Philippine Daily Inquirer and Powerbooks will be held today from 9 a.m. to 12 noon at Powerbooks, Greenbelt 4, Makati City. The seminar marks the release of Page One: Book Two, published by the inquirer. The much-awaited sequel to the groundbreaking Page One: Book One, this new volume presents the most memorable front-page images of the Inquirer from 1996 to 2001. Inquirer publisher Isagani M. Yambol and associate editor Abel S. Ulanday will speak on "Media Values amidst a Political and Moral Crisis" and "The Science of Producing a Daily Newspaper," respectively. Moderator for the discussion is Inquirer books consultant Ruel S. De Vera.

New look for Makati cops

MAKATI CITY policemen will have a date with the barber today at no cost. "This is meant to boost the morale of our men. When you are enforcing the law, you also have to look presentable, or else the people will not respect and obey you," said Supt. Elren Yusulit, Makati Police District officer in charge. Hairstylists from the Kumakalinga sa Mamamayan Para sa Reporma Inc. (Kumpara), a nongovernment organization have been tapped for the job from 9 a.m. to 5 p.m. at the Makati City Hall quadrangle.

Kim Eng group sells PSE stake

Kim Eng group sells PSE stake

The Kim Eng group has sold its stake in the PSE, a move that is expected to significantly impact the company's financial performance. The sale was completed on November 10, 2004, and the proceeds are expected to be used for various strategic initiatives. The Kim Eng group, which has been a major shareholder of the PSE, has decided to exit the market to focus on other business ventures. This move is seen as a strategic decision to diversify the group's portfolio and reduce its exposure to the PSE market. The sale is expected to generate a substantial amount of revenue for the group, which will be used to fund its expansion plans and research and development activities. The PSE, on the other hand, is expected to continue its operations independently, with the Kim Eng group no longer having a significant influence on its management and operations. The sale is a landmark event for both the Kim Eng group and the PSE, marking a new chapter in their respective histories.

my research, it is highly improbable that a single spontaneous event leads to the creation of the entire universe. O ha! Nakapasa yata along NEAT!

What's a name you'd rather be called? Lafawnduh Lily-Go-Yap-Champ-Lul-Pio

What is right next to you? A bell!!! Duh!!!!

Where do you want to go on your honeymoon? Sa State.

You mean United States? Hindi!!! Sa State! Duh!!!

Have you ever won any special awards? Actually, a lot. Binibining Bukid '76. Super!'s Oh! Caption, My Caption! Contest, MTV VJ Hunt, and a dog show.

Any message to your family and friends? Well, may gusto akong sabihin sa aking daddy. Dad, utang na loob, patigilin nyo na sa pag-omawo sa inay. K? And to my friends, all I want to say is L.I.B.Y.A.—Love is Beautiful; You Also.

Ms Kuba is misunderstood. She is a gem in a sea of plastic characters that bombard our primetime screens. She is the most insightful, deep, and meaningful person we've met, and when she dies, we're sure they'll all say, "Kawawa naman si Kampie, in-attack ng bell."

Catch *Kampanerang Kuba* weekdays, 8:30 p.m. only on ABS-CBN.

comes a true pleasure once you first experience That Day. It will eventually come; That Day is totally different from the first day of moving in, for it will be marked by a strange, but groovy kinda feeling when you look around at your new pad, after dinner perhaps, and say to yourself, Welcome home.

Now pour out the imaginary champagne.
